

ACRYLIC ROD & TUBE

Acrylic plastics are known for their attractive, glossy surfaces, in almost any color. Acrylic is a useful, clear plastic that resembles glass, but has properties that make it superior to glass in many ways.

Plastifab offers a full stocking program on standard Acrylic stock shapes from round or square tubes and bars, to half round rods and Z-Bars. Special effects like glitter, spirals and bubbles are available upon request.

To serve you faster, Plastifab stocks all clear standard Acrylic stock shapes.
