# Plastifab

Utilizing the highest quality raw materials, **Tecacryl™** extruded acrylic shapes offer extraordinary transparency, colour fastness, exceptional durability, good mechanical strength and outstanding weatherability. The combination of shape, colours and patterns challenge the limits of design and creativity.

En utilisant des matières premières de haute qualité, la gamme de produits **Tecacryl™** offre une transparence et stabilité de couleur exceptionnelle ainsi qu'une bonne durabilité, force mécanique et résistance aux intempéries. Le choix de formes, couleurs, textures et motifs offre des combinaisons sans limite.

# PROFILES

## Plastifab's Tecacryl™

acrylic is manufactured using the latest proven extrusion process. With excellent resistance to weathering, Tecacryl rods, tubes and profiles are ideally suited for a wide variety of commercial, industrial and decorative applications.

The wide range of colours available in Tecacryl allows the designer great flexibility in creating unique geometries and shapes for kitchen, office, bathroom, POP, store fixtures, architectural markets and many more.

## L'acrylique Tecacryl™

est fabriqué par Plastifab en utilisant des procédés d'extrusion les plus prouvés dans la domaine. Avec une résistance exceptionnelle aux intempéries, les tiges, tubes et profilés Tecacryl sont le choix approprié pour une variété d'applications commerciales, industrielles et décoratives.

La vaste gamme de couleurs disponible avec le Tecacryl permet aux concepteurs une grande flexibilité de géométries et diverses formes dans la conception de cuisines, bureaux, salles de bain, présentoirs, éclairages, marchés architecturaux et bien d'autres.
